

The Most Valuable Dental Benefit: Improved Oral Health

Everyone wants strong, healthy teeth and gums free from disease. That's the real value of having an excellent dental plan like Delta Dental.

Yes, a Delta Dental plan makes seeing the dentist affordable and convenient. But beyond affordability, Delta Dental's commitment to oral health and our unique Preventistry® approach to care is intended to prevent tooth decay and periodontal disease. And now we're giving our members a new tool that empowers them to take an active role in their own oral health and that of their family.

Introducing MyDentalScore.com, an easy-to-use online program that offers our members access to new risk-assessment technology, provides them with an accurate evaluation of their oral health and encourages early treatment of potential problems such as tooth decay, gum disease and oral cancer.

Delta Dental of Massachusetts
465 Medford Street
Boston, MA 02129
800-872-0500
www.deltadentalma.com

Here's how MyDentalScore works. It's easy and effective!

1. The Delta Dental member logs on and answers some simple questions about his or her oral health.
2. They provide some details about lifestyle.
3. Our MyDentalScore risk assessment tool provides an easy to understand oral health score report assessing disease risk and oral health needs.
4. The member shares the report with the dentist and creates an action plan.

Gum Disease Risk: 1

Your estimated gum disease risk is 1, indicating very low risk.

Gum Disease Score: 1

Your estimated gum disease score is 1, indicating healthy gums.

Simple, user-friendly, and it can make a difference -healthier smiles, cavity free check-ups, lifetime of good oral health. That's the true measure of the value of a dental plan. And nobody delivers on that promise like Delta Dental. Try it. Go to deltadentalma.com/mydentalscore and learn more about your own oral health today!
